

Quality products made EASY...

Home Improvements
your local family business

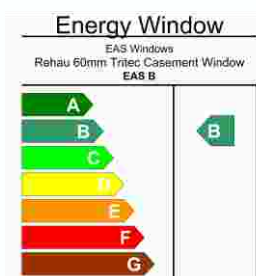

Don't Move ...Improve

There has never been a better time to get your home improvements off the ground. For a limited period we are offering a free upgrade to a high energy rated window at no extra cost, using the latest energikare Pilkington glass.

Stop your money going out of the window.

Be more energy efficient with Pilkington **energikare**™. It allows more heat from the sun in through the window and reduces the amount of heat lost. So not only will you save money on your heating bills, you'll also help protect the environment. For more details visit pilkington.co.uk

Based in Oadby, Leicester, E.A.S. excels in the production and installation of PVCu windows, doors and conservatories. With a product portfolio extending to soffits, fascias, guttering, garage doors, porches and even patios, we are bound to have something to help you make the very best of your home!

Our customers know they can rely on our first-rate service, superior products and excellent value for money. We provide advice and recommendations to customer requirements and have an impressive array of products to view in our unique show-home.

Please come and have a look yourself, or why not have a virtual reality tour at...
